

To our Customers and Vendors,

We are pleased to announce the acquisition of Dura Plastic Products Inc, by Tigre USA. Tigre USA provides solutions for plumbing, waterworks and HVAC markets. It was founded in 2006, in Janesville, Wisconsin, and since then has earned great reputation with a solid customer-base and service offered.

Tigre USA is part of the Tigre Group, a Brazilian multinational corporation with a strong international presence, leader in construction and water solutions and expertise of 80 years in this market segment. The company offers a broad portfolio of products serving construction, infrastructure, irrigation, and industrial markets and has a large presence in 40 countries.

Together, Dura and Tigre are among the largest in the sector in the country. Product portfolios that are complementary and the diversity of market segments are the pillars on which new opportunities for customers and professionals of both companies will be built.

This new partnership accelerates our goal of serving the market with a high-quality and an even more comprehensive portfolio, service and competitiveness. We want to demonstrate our willingness to continue delivering solutions to the market with value proposals that present growth possibilities for our customers and representatives.
